

Paper Reference	First Name	Last Name	Organisation	Paper Title
P.1.01	Yeon Soon	Ahn	Wonju College Of Medicine, Yonsei University	A Nationwide, Longitudinal Study of Crohn's disease among Korean workers exposed to toluene
P.2.01	Gemma	Archer	King's College London	Epidemiological studies of the Porton Down veterans: an update of cancer incidence and mortality to 2018
P.2.38	Jesper	Bælum	Dept. Occupational and Environmental Medicine, Odense University Hospital	Occupational exposure and incidence of asthma based on prescription of drugs
O4B.1	João Marcos	Bernardes	Unesp - São Paulo State University, Botucatu Medical School	The impact of manual patient handling on work ability: a cross-sectional study
O5A.2	João Marcos	Bernardes	Unesp - São Paulo State University, Botucatu Medical School	Musculoskeletal symptoms and work-related accidents: a hospital-based case-control study
P.3.03	João Marcos	Bernardes	Unesp - São Paulo State University, Botucatu Medical School	Low back pain and manual patient handling among healthcare workers: a cross-sectional study
P.1.03	Igor	Bukhtiyarov	Fbsi Izmerov Research Institute Of Occupational Health	Mortality Analysis in Different Exposure Groups of Coal Miners in Rostov Region of the Russian Federation
O1D.2	Alberto	Caban-Martinez	University Of Miami, Miller School Of Medicine	Objective Measurement of Work-Environment Carcinogenic Exposures in Florida Firefighters using Silicone-based Passive Sampling Wristbands
P.2.03	Alberto	Caban-Martinez	University Of Miami, Miller School Of Medicine	Design, Development and Implementation of a National Multi-Site Fire Fighter Cancer Cohort Study
P.1.04	Kate	Chaivatcharaporn	Samutprakan Hospital	Correlation between scalp hair lead levels and blood lead levels of lead battery manufacturing workers
P.2.04	Heng-Hao	Chang	National Cheng Kung University Hospital	Occupational skin disease in a tertiary occupational dermatologic clinic: a retrospective analysis from 2010 to 2017
O7C.2	Yiqun	Chen	Health & Safety Executive	Developing a Measuring Strategy for monitoring and evaluation of a national occupational health intervention programme in Great Britain (GB)
P.1.05	Yiqun	Chen	Health & Safety Executive	Developing a Workplace Intelligence System for Exposure-control in Great Britain (WISE-GB)
P.3.05	Ping Hui	Chen	National Taiwan University Hospital	Maritime Fatal Accidents and Vessel Disasters in Taiwanese Fishing Vessels, 2003-2015
P.3.06	Ping Hui	Chen	National Taiwan University Hospital	Maritime Fatalities due to Acute Illness in Taiwanese Fishing Vessels, 2003-2015
P.2.06	Alexandra Golabek	Christiansen	Department Of Occupational Medicine, Aarhus University Hospital	Risk and prevention of sensitization and allergic contact dermatitis among workers handling epoxy resins
P.1.06	Po-ching	Chu	National Taiwan University	Effects of cigarette smoking on hearing loss in workers with noise exposure
P.3.07	Po-ching	Chu	National Taiwan University	Prognosis and quality of life in workers with occupational upper limb injury
P.1.07	Hung-yi	Chuang	Kaohsiung Medical University	A Study of Blood Multi-element Concentrations in Lead-exposed and Non-exposed Workers
P.1.08	Ann Marie	Dale	Washington University School of Medicine - General Medical Sciences	Connecting contractor safety management programs and worker perceived safety climate in commercial construction projects
P.1.09	Alireza	Dehdashti	Semnan University Of Medical Sciences	Risk assessment of exposure to Formaldehyde in university laboratories
O4B.4	Adriano	Dias	Botucatu Medical School/Paulista State University	Predictors of return to work with readaptation in public workers
P.2.07	Adriano	Dias	Botucatu Medical School/Paulista State University	Times of sick leave due to temporary disability related to a non-work-related illness and re-adaptation to work
P.3.10	Anni	Enn	Estonian University Of Life Sciences	Causes and consequences of work accidents in Estonian agriculture
P.3.11	Astri	Ferdiana	University Of Mataram	Implementation of Community-Based Occupational Health Programs for Informal Workers in Indonesia
P.1.11	Natalia	Gilbert	Instituto de Salud Pública de Chile	"Creation of classification model using Machine Learning; to detect dysphonia work-related"
P.1.12	Seunghon	Ham	Department of Occupational and Environmental Medicine, Gil Medical Center, Gachon University College of Medicine	Particulate Matter Measurement System using Low Cost Sensor and Internet of Things
P.2.09	Anong	Hansakul	Department of Public Health, Srinakharinwirot University	Health Risks of Worker who Work with the Infectious and Health Care Waste Transportation from Hospital by Private Transport Sector
P.2.39	Ching-chun	Huang	Department of Environmental and Occupational Medicine, National Taiwan University Hospital	Periconceptional exposure to ambient air pollution and congenital hypospadias
P.3.14	Mandeep	Joshi	Community Health And Environmental Society Nepal	Occupational Hazards Among Migrant Workers: Impact on their fertility and mental health
O5B.6	Shambhu	Joshi	Far Western Community Hospital	Occupational Contact Dermatitis and how the Community Responses in Developing Country
P.1.15	Shambhu	Joshi	Far Western Community Hospital	Mercury Hazards and how the community responses in developing country
P.1.16	Helen	Kelsall	Monash University	Physical health of Transitioned ADF and Regular ADF members in 2015: Findings from the Transition and Wellbeing Research Programme
P.1.17	Hyoung-ryoul	Kim	Department Of Occupational And Environmental Medicine, College Of Medicine, The Catholic University Of Korea	Working time, smoking, and caffeine intake by working type of taxi drivers in Korea
P.3.15	Tahira	kootbodien	National Institute For Occupational Health	Suicide trends by occupation in South Africa, 1997 to 2016
P.1.18	Phanumas	Krisorn	Division Of Occupational Medicine, Department Of Community Medicine, Faculty Of Medicine, Khon Kaen University	Factors related to lower urinary tract symptoms of female workers in the electronic parts industry in Khon Kaen province
P.1.19	Tyler	Lane	Monash University	Increased benefit generosity and the impact on workers' compensation claiming behaviour: an interrupted time series study in Victoria, Australia
P.2.10	Tyler	Lane	Monash University	Healthcare provider communication and the duration of time off work among injured workers: a prospective cohort study
P.1.20	Jae-Yong	Lee	Department Of Occupational And Environmental Medicine, College Of Medicine, The Catholic University Of Korea.	Trends in Prevalence of Obesity according to occupational group : The Korean National Health and Nutrition Examination Survey.
P.1.21	Jiae	Lee	SK Hynix Inc.	The establishment of a cohort study in a semiconductor company of South Korea
P.2.12	Lukas	Lee	National Health Research Institutes	Clustering of malignant pleural mesothelioma in asbestos factories in a 29-years follow-up study to identify high-risk industries in Taiwan
P.2.11	Kyoungho	Lee	Samsung Electronics Co. Ltd.	Vitamin D Deficiency and Hepatitis B Virus Infection and Risk of Hematological Malignancies among Korean Semiconductor Workers: A Case-Control Study
P.3.16	Yi-Jing	Li	The Institute Of Health Policy And Management, National Taiwan University	The associations between psychosocial work conditions and work sustainability: Findings from a national survey of working people in Taiwan
P.1.25	Gwan-Ling	Lin	Nursing, Cardinal Tien Junior College Of Healthcare And Management, New Taipei City, Taiwan	The effect of variations air pollution concentration on ischemic stroke
P.1.24	Ro-ting	Lin	China Medical University	The development and impact of policies and research for preventing and recognizing overwork-related cardiovascular disease in Taiwan
P.1.23	Ro-ting	Lin	China Medical University	Gaps between international conventions and national asbestos ban policies: a global perspective
P.1.26	Saou-Hsing	Liou	National Health Research Institutes	Biomarkers of Health Effects in Nanomaterials Workers: Updated Status of Nanoepidemiology
P.2.14	Saou-Hsing	Liou	National Health Research Institutes	Pulmonary dysfunction in indium tin oxide exposed workers
P.3.17	Hsi-chen	Liu	Institute Of Health Policy And Management, College Of Public Health, National Taiwan University	Prevalence and distribution of musculoskeletal discomforts and the associations with work-related ergonomic and psychosocial factors in employees of Taiwan
P.3.20	Sophia Francesca	Lu	Carrs-Q, Queensland University Of Technology	Hospitalization outcomes of road traffic injury patients in the largest hospital in the Philippines
P.3.19	Sophia Francesca	Lu	Carrs-Q, Queensland University Of Technology	Effect of Occupational Work and Safety Issues on Road Crash Injuries in the Philippines
P.3.18	Sophia Francesca	Lu	Carrs-Q, Queensland University Of Technology	Association between nightshift schedule and mental health symptoms among factory workers: a cross-sectional study
P.3.21	Felix	Made	National Institute For Occupational Health	Predictors of health perception among waste pickers in landfill sites in Johannesburg Municipality, South Africa
P.3.23	Napattamon	Manorat	Roi Et Hospital	Incidence rate and related factors of occupational injuries among veterinarians
O8D.8	Stefano	Mattioli	University Of Bologna	Severity of carpal tunnel syndrome and manual work: findings from a case-control study
P.1.28	Stefano	Mattioli	University Of Bologna	Air pollution and diseases: a practical tool for effective PubMed search
O5C.6	David	Mcbride	University of Otago	The health and wellbeing of New Zealand veterans.
O5C.1	David	Mcbride	University of Otago	The NZ Vietnam veteran family study: a multi-generational perspective on health and wellbeing.
P.2.15	David	Mcbride	University of Otago	Exposure to 2,3,7,8-tetrachlorodibenzo-p-dioxin and mortality at a trichlorophenol plant in New Zealand
O6E.2	Damien	Mcelvenny	Institute of Occupational Medicine	Exposure Assessment for a Study of Cognitive Impairment in Former Professional Footballers in England
P.1.29	Damien	Mcelvenny	Institute of Occupational Medicine	Communication and Dissemination in the OMEGA-NET COST Action
P.2.16	Gautham	Melur Sukumar	National Institute Of Mental Health And Neuro Sciences	Health and Productivity: A five year study (2010-14) in a large automobile industry in India
P.2.18	Shlomo	Moshe	Maccabi Healthcare Services	The Curriculum Implementation of occupational medicine in Israel
P.2.17	Shlomo	Moshe	Maccabi Healthcare Services	Case Report: Three Occupational Diseases in a Nail Technician
P.2.19	Go	Muto	Harvard HSPH/ Kitasato University	Effect of collaborative support of occupational and clinical physicians -Evaluation of outcome due to treatment drop out in non-communicable diseases
P.3.24	Nisha	Naicker	NIOH	Prevalence of non-fatal injuries in informal waste recyclers in landfill sites in Johannesburg, South Africa.
P.2.20	Makiko	Nakano	Keio University School Of Medicine	Epidemic of bladder cancer in Japanese male workers exposed mainly to ortho-toluidine
P.2.21	Beyene	Negatu	Pesticide Registration And Control Department, Addis Ababa Ethiopia	Occupational pesticide exposure associated with a reduction of respiratory parameters in Ethiopian farm workers
P.1.30	Maja	Nikolic	Public Health Institute Faculty Of Medicine University Of Nis	Assessment of sick building syndrome among employees in the commercial centers in Nis, Serbia
P.3.33	Ming Wu Warren	Ong	Moh Holdings	Knowledge, Attitudes, Behavior toward Needle Stick Injuries amongst Junior Doctors in a Singaporean hospital – A Mixed-Methods Approach
P.1.31	Dirk	Pallapes	Ipa	Limit values for metals: Discrepancies between derivation from animal experiments and epidemiological studies/workplace observations without effects at higher exposures
P.2.23	Kathrine	Pape	National Research Center For The Working Environment And Aarhus University	Adverse Childhood Experiences (ACE) in Early Life and the Risk of Childhood Asthma: a Danish Nationwide Cohort Study

P.2.24	Ki Soo	Park	Gyeongsang National University	The Effect of the Exposure to Work-related Potentially Traumatic Events on Occupational Functioning (Work Limitations) among Firefighters: a Cross-sectional Study
P.1.32	Khongrit	Pinyowiwat	Faculty of Medicine, Chulalongkorn University	Comparisons of the results from ergonomic tools between Rapid Entire Body Assessment and Quick Exposure Check in a steel factory
P.3.25	Riin	Raimla	Estonian University Of Life Sciences	Laparoscopic simulation for veterinary students
P.3.27	Marie-Anne	Roseberg	University Of Michigan, School Of Nursing	Immigration-related stressors and health outcomes among low-wage immigrant hotel workers
P.2.27	Priyanka	Roy	Department of Labour, Government Of West Bengal, India	Manganese exposure in steel and allied factory: cause of secondary Parkinsonism
O7D.3	Jolinda	Schram	Erasmus Mc Rotterdam	Working conditions and health behaviour as causes of educational inequalities in self-rated health: an Inverse Odds Weighting approach
P.2.29	Jolinda	Schram	Erasmus Mc Rotterdam	Does a change in working conditions influence labour force participation among workers with a chronic disease?
O3B.5	Sharon	Stevelink	King's College London	The mental health of police, firefighters and paramedics in the UK Biobank: a comparison with the general working population
O5C.3	Sharon	Stevelink	King's College London	The mental health impact of deployment to Iraq and Afghanistan: what does the current data show?
P.3.30	Sharon	Stevelink	King's College London	Understanding the impact of psychiatric morbidity on employment and benefit changes: a data linkage project
O5E.3	Henk	van der Molen	Amsterdam UMC, Coronel Institute of Occupational Health, Netherlands Center for Occupational Diseases	Occupational diseases among workers in different socioeconomic positions
P.2.31	Henk	van der Molen	Amsterdam UMC, Coronel Institute of Occupational Health, Netherlands Center for Occupational Diseases	Association between work and chronic obstructive pulmonary disease Review of systematic reviews
P.1.36	Katherine	Venables	University Of Oxford	Occupational cohort studies: safeguarding a valuable resource
P.2.32	Chung-ching	Wang	Tri-service General Hospital, National Defense Medical Center	Change in employment status in survivors with occupational cancers
P.2.33	Kampanat	Wangsan	Faculty Of Medicine, Khon Kaen University	The association between pattern of shift work and sleep quality amongst nurses in University hospital in Northeastern region of Thailand
P.1.38	Wei-te	Wu	National Health Research Institutes	Effects of paraoxonase 1 (PON1) genotype and nanomaterials exposure on heart rate variability
P.2.35	Wei-te	Wu	National Health Research Institutes	Heart rate variability and sleep-related breathing disorders in commercial drivers
P.1.37	Hsin-chien	Wu	National Yang-Ming University	A study of the incidence rate and risk factors of metabolic syndrome among workers of different job categories in Taiwan.
P.2.36	Hsiao-Yu	Yang	National Taiwan University	Assessment of serum and urinary biomarkers for pneumoconiosis in a cohort of stone workers exposed to asbestos-contaminated minerals
O6A.5	Guanlan	Zhao	University Of Alicante (Spain)	Mortality and risk behaviours in Spanish female farmers
P.1.40	Guanlan	Zhao	University Of Alicante (Spain)	Farmer's suicide with the use of pesticides in different areas in Spain
P.2.37	Guanlan	Zhao	University Of Alicante (Spain)	Spanish firefighter's 10-year follow-up study on cancer mortality
